¹ The price is for the non converted product. Foil and Cine/Case will be delivered flat in different cartons. The individual 4/4 C Print (CMYK) is already included in the price.

² The extra Smartphone-Mount is made of four plastic stoppers and two rubber rings. They will be converted in a small poly bag. The mount needs to be ordered directly with the main order, because of some necessary extra holes. The costs for the extra holes are included in the mount prices.

³ The price for the A5 Polybag includes the costs for the converting of the HoloCine V into the poly bag. For orders with higher quantities the converting may cause a later delivery.

⁴ Main delivery time. If you need the HoloCine faster please ask for express.

⁵ Design and Videos. If you want a TRIVTEC designer to do the Video work, please calculate between 60 and 80 € per hour. We can also help you or your customers to create the videos.

⁶ All prices are net prices. For German customers or customers without a VAT-Id we will charge 19% vat on top.
